

Georgios Karaliolios

Data Analyst

A results-driven Data Analyst with a strong foundation in data science, digital analytics, and economics, currently supporting Sony Global as part of Baresquare's analytics team. With a Master's in Data Science & Marketing Analytics and a Bachelor's in Economics, I bring hands-on experience in analyzing large-scale digital data, automating workflows, and building AI-powered tools that drive business efficiency and strategic decision-making. Passionate about turning complex data into clear, actionable insights, I thrive in fast-paced, cross-functional environments where innovation and precision drive measurable results.

Work Experience

Data Analyst – Sony Global Account

Baresquare, Thessaloniki, Greece

July 2023 – Present

- Overseeing digital analytics across all Sony sites to support data-informed decision-making and error alerting.
- Analyze large-scale data using Adobe Analytics, DOMO, Power BI, Excel, and Python, transforming raw data into actionable insights that drive performance improvements.
- Automated the global product classification system for Sony using Python, significantly reducing manual workload and improving accuracy across regional markets.
- Lead AI-driven initiatives, creating multiple Custom GPTs and AI assistants to streamline internal workflows and improve analysis efficiency.
- Manage user account creation and access control for Sony's key analytics tools, including Adobe Analytics, Minitab Connect, and User Insight (heatmap tool), ensuring seamless tool adoption and access governance.
- Develop insightful dashboards and ad hoc reports tailored to marketing and business stakeholders, enhancing visibility into campaign effectiveness and site behavior.
- Collaborating closely with international stakeholders and cross-functional teams.

Most important projects:

- Global DTC Product Classification Automation
- CES 2025 Performance Report
- Monitoring Index Flow Ownership
- SONY Australia Cross Sell Analysis Project

Data Analytics Consultant

EasyToys.nl
